

## PRODUCT NAME

**Model Code ICP-RQL-XL-Q-H012**

## PRODUCT FEATURES

ICP-H012 Gas grill features a unique design that serves various usage scenarios while ensuring cooking quality.

The core design concept is ultimate portability, space-saving storage, and allowing users to enjoy the delights of barbecue cooking anytime, anywhere.

The H012's components are all designed with detachable features for easy conversion to a compact storage mode. The standard model can provide up to 1000 square centimeters of cooking area when in operation mode.

The entire oven is made of stainless steel, ensuring high durability and stability.

By connecting an external gas cylinder for fuel supply, we provide a free push-button ignition control pannel as a standard accessory.

Last but not least, H012 is highly customizable, allowing customers to choose size dimensions, logo customization, and a series of other specific requirements.

## TECHNICAL INFORMATION

	Description
Package dimensions (L*W*D)	45*28*5 cm
